Bench Top Centrifuge

- Choice of more than 30 models
- Max. speed up to 20,000 RPM
- Tube capacity from 0.2 ml to 250 ml
- User-friendly microprocessor control models available for fast and accurate setting and reproducibility of run parameters
- Pre setting of speed, temperature and time
- Precise speed control and reproducibility
- Unique safety rotor identification system

- Brushless induction motor, Practically maintenance free
- Safety lid interlock to prevent cover opening during centrifugation

WORLD CLASS
PREMIUM RANGE

NEYA

4 X 175 ml 16000 rpm PROG 10 prog. Refrigerated

- Maximum capacity 4 x 175 ml
- Maximum speed 16000 rpm

- Automatic rotor detection, check of presence of accessories and compatibility with maximum speed
- Safety speed limiter function
- 10 storable programs with protection function
- Setting of speed in RPM and RCF
- Short Spin function and precool feature available
- Controlled by microprocessor and backlit color LCD display with contemporary visualization of all parameters
- Digital adjustment of acceleration and deceleration levels
- Stainless steel internal bowl with optimal height for loading and unloading of samples
- Imbalance detection system with automatic functioning stop to avoid accidents
- Automatic locking system of the lid
- Safety opening of the lid in case of absence of electric

- power
- Brushless motor maintenance free and no carbon deposits
- Construction in accordance with European directives

Visual signal of end of centrifugation
