

Health Kiosk 201

Standalone Health ATM

TATA
COMMUNICATIONS

Smart walk-in Clinic

Health Diagnostic System

- Large TFT touch screen color display
- Performs 50+ tests
- Video consultation
- Electronic Health Record
- Secure patient and clinic information management
- Secured cloud connect
- Wi-Fi connectivity for data transmission

Health Kiosk 201 - Screening Tests

12 lead ECG

Measures heart rate and rhythm to detect heart disease or abnormal heart rhythms

Spirometer

Pulmonary function test to diagnose the health of lungs

Blood pressure

Provides accurate information about hypo and hypertension

BMI

Automatically calculates BMI to determine obesity

Weight

Measurement of body weight for monitoring body fat or muscle mass changes

Rapid test

Strip based test to diagnose routine diseases

Hemoglobin meter

Simple reliable test measures hemoglobin in the blood

Biochemistry

Diagnosis of Lipid, Liver, Cardiac Electrolyte and kidney profile test

Vision

Easy user interface for operation

Pulse oximeter

Quick and reliable determination of oxygen percentage in red blood cells

Digital stethoscope

Provide faster diagnostic results and produce clearer audio for analysis

Body temperature

Non contact digital thermometer IR sensor for accurate body temperature measurement

Height sensor

Fast and automatic ultrasonic height measurement
