

## Magnetic Stirrers

1-MLH

1-RML

1-ML

### Basic Series :

- PMDC motor for giving higher torque even at lower speeds
- Better low speed stirring even with small volumes
- Accurate step less speed control maintains excellent speed stability
- Speed continuously variable upto 1200 RPM.
- Choice of more than 15 models having varying stirring volumes up to 20 liters.
- Available with / without hot plate as per your requirement.
- Electromagnetic Stirring with reverse spin feature.
- Rotamantes for convenient stirring in flask with simultaneous uniform heating.

5 MLH Plus

10 MLH Plus

3 ML Plus

### Plus Series

REMI Presents the next generation of magnetic Stirrers with new stir technology. These are available in both hotplate & without hotplate versions.

#### Salient Features:

- Speeds range 100-1500 rpm
- Stainless Steel Hot Plate Model for temperatures up to 340°C
- Ceramic Hot Plate Model for temperature up to 550°C
- Easy -to -read backlit LCD for display of set & actual parameters
- Maintenance free brushless motor
- External temperature probe (PT-1000) for measurement display and control of sample fluid temperature

## Motorless Magnetic Stirrers

MS 800 Plus

### Salient Features:

- No moving parts - truly maintenance free
- Low aspect ratio (just 12 mm thick)
- Software driven gradual acceleration
- Adjustable speed (15 to 1500 RPM) with digital display
- Microprocessor controlled with last run memory feature
- Stirring cap. 800 ml - set up place of 100 mm
- Pulse mode - reverses the direction every 30 secs for proper mixing
- Corrosion resistant SS top Surface to fight harsh chemicals

Ultra - flat compact magnetic stirrer, guaranteed with modern magnet coil technology. Wear - free with no moving parts. To ensure better mixing, the lab disc can reverse direction of rotation automatically every 30 seconds
